Activities during the three months to 30 June 2018 included:

- **Discussions continued between AKN and Bonito in relation to the funding for future exploration programs at La Dura as there are no current funding arrangements in place.**
- **AKN management continues to assess copper, gold and other base and precious metal project opportunities in Australia and other regions, with view to secure future projects that will generate shareholder value.**
- **AKN's Annual General Meeting was held on 30 May 2018, with all resolutions being passed by substantial majorities.**

The Board of AuKing Mining Limited (ASX:AKN) continues to focus on transforming the Company into a substantial mid-tier mining group, with a primary focus on acquiring and developing near-term copper, gold and other base and precious metal production activities (both locally and overseas).

The activities of AuKing Mining Limited (“AuKing” or “AKN”) during the three months to 30 June 2018 were as follows:

La Dura, Mexico

As previously advised, the results from exploration drilling at La Dura earlier this year produced gold and silver assays that were less than anticipated. However, the Bonito exploration team suggested that the zones of mineralization intersected could be in the upper levels of an epithermal system and should be further tested by core drilling deeper into the system.

Bonito believes that there is high potential for the discovery of additional gold/silver mineralisation within the La Dura concessions. The principal structure extends for nearly 5kms. Further mapping and sampling particularly to the south of La Dura is required.

Completion of the drilling program at La Dura exhausted the funds previously contributed by AKN to Bonito. To carry out further exploration activities, Bonito will need to raise additional funding. There are no agreements in place at the present time for future funding of Bonito activities at La Dura. Discussions are continuing between AKN and Bonito as to how additional funding may be obtained, but it is not currently the intention of AKN to provide additional funds under the existing Bonito structure.

Exploration Activities

No exploration was carried out by AKN during the period.
