#### **Review of Operations**

China Yunnan Copper Australia Limited ('CYU' or 'Company') is an Australian company formed to explore for and develop minerals in Australia and overseas. Cornerstone investor China Yunnan Copper (Australia) Investment & Development Co. Ltd, who hold a 21% interest, is a subsidiary of Yunnan Copper Industry (Group) Co Ltd which is China's third largest copper producer and their largest silver and bismuth producer. CYU is targeting high quality copper, gold and uranium projects with eleven wholly owned Exploration Permits for Minerals (EPM's) in the Mt Isa Inlier, Ravenswood-Pentland Province and the Clermont Inlier in Queensland. Significant results have been generated from greenfields prospects after one year as a listed entity, with field programs conducted on the Cloncurry, Mt Isa, Clermont and Pentland projects.

For the half year ended 31 December 2008 the Company made a loss of \$454,113 (2007: \$140,900).

### **Project Generation**

China Yunnan Copper Australia Limited has a five year strategy for CYU and its cornerstone investor, Yunnan Copper Industry (Group) Co. Ltd. As in the case of all Chinese supported enterprises we have a long term vision - to own profitable copper gold operations in Australia and overseas. CYU is continuing to search and identify opportunities with Yunnan Copper Industries (YCI) providing additional expertise and funding. During 2008 CYU reviewed 51 projects for YCI, but none met the company's investment criteria. As the global financial crisis has resulted in generally lower commodity and project prices, an increasing number of investment opportunities exist.

Discussions are underway on projects in Australia, Chile and China as well as in other business-friendly jurisdictions. In general our growth strategy will be achieved by;

- Careful management of the CYU treasury.
- Focus on high quality copper and gold exploration targets.
- Increased value for CYU shareholders in future advanced project acquisitions. CYU has prudently not acted on over priced assets since an advanced project evaluation program commenced in October 2007.
- Maintenance of the world class exploration and evaluation team that has been carefully recruited. CYU is maintaining its technical team to grow the business in this period of opportunity.
- Utilisation of our financial strength within our partnership structure with Yunnan Copper Industries. The aim is to acquire quality mining assets with the assistance of our cornerstone investor.

### DIRECTORS' REPORT

### **Projects**

Exploration has continued on the Company's tenements in Queensland during the period.

#### Pentland

Drilling at the Toomba Prospect was undertaken during the period. The Toomba prospect has extensive historic workings and traces of mineralisation over an area of 1.5 kilometres by 1 kilometre. Results of drilling were released to the ASX on the 5<sup>th</sup> of January. Results highlights included 4 metres at 13.9 g/t gold from 43m, PC005 (including 1 meter at 50.59g/t gold, 0.5% copper, 1.5% lead and 3.3 % zinc).

These early drill results will be extended at depth to test a link between structural mineralisation intercepted to date and potential high tonnage intrusive mineralisation at depth with a track mounted diamond drill rig to be contracted for follow up drilling in 2009.

#### Cloncurry

For the Cloncurry North Project, over the past 12 months CYU has completed prospect scale geological mapping and rock chip sampling at Emu and Mavis prospects, soil sampling at Emu, Cobb, Mavis and Gem prospects a ground magnetic survey at the One Tree Hill area, IP geophysical survey in the One Tree Hill and Capsize Creek areas, RC drilling at Capsize Creek, Emu, Cobb and Mavis prospects and diamond drilling at FC4 prospect. At present a detailed ground magnetic survey is being proposed for the Emu Prospect. Encouraging drill results were reported on the 23<sup>rd</sup> October 2008 and are being followed up with ground magnetics to commence in the coming weeks and deep drilling proposed at Emu and additional surface mapping and sampling work for Mavis and Gem.

#### Mt Isa

Mapping of known mineralised structures has commenced on EPM15248. This project is relatively new, having been granted just one year ago. A number of undrilled copper occurrences are being developed to allow drilling in the current calendar year. An application has been submitted for a new project immediately east of Mt Isa on open ground with untested copper workings present.

### Clermont

The Clermont Project is prospective for epithermal and mesothermal quartz-vein gold mineralisation. A reconnaissance of the project was completed during the period. This has resulted in the decision to complete a surface regolith mapping program during the second half of the year.

### Ravenswood

Newmont has elected to withdraw the joint venture covering EPM11602, EPM11982 and EPM15057 in this area. A review of the data generated by the previous JV operators has been conducted and as a result CYU will advance the exploration on numerous untested intrusive related gold targets.

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of an Interim Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of China Yunnan Copper Australia Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
