Activities during the three months to 31 December 2018 included:

- Discussions continued between AKN and Bonito in relation to the funding for future exploration programs at La Dura. As a result of no additional funding being secured, the option agreement held by Bonito lapsed, at the election of the La Dura owner.
- Discussions are continuing in relation to new project opportunities for AKN – although incomplete at the moment, the AKN Board is hopeful of making an announcement early in 2019.
- AKN management continues to assess various other copper, gold and other base and precious metal project opportunities in Australia and other regions, with a view to secure future projects that will generate shareholder value.

The Board of AuKing Mining Limited (ASX:AKN) continues to focus on transforming the Company into a substantial mid-tier mining group, with a primary focus on acquiring and developing near-term copper, gold and other base and precious metal production activities (both locally and overseas).

The activities of AuKing Mining Limited ("AuKing" or "AKN") during the three months to 31 December 2018 were as follows:

La Dura, Mexico

As previously advised, the results from exploration drilling at La Dura in 2018 produced gold and silver assays that were less than anticipated. However, the Bonito exploration team suggested that the zones of mineralization intersected could be in the upper levels of an epithermal system and should be further tested by core drilling deeper into the system.

To carry out further exploration activities, Bonito needed additional funding but no arrangement could be secured by Bonito. AKN advised Bonito that it had no intention to provide additional funding at this time. As a result, after discussions with the owner of the La Dura concessions, the owner elected to lapse the option agreement with Bonito. The owner would appear to be amenable to future discussions but again, this will depend on whether suitable funding can be found.

Exploration Activities

No exploration was carried out by AKN during the period.

Exploration Expenditure for December 2018 Quarter

Nil exploration expenditure was incurred for the December 2018 Quarter.

Corporate Update

Acquisition Activities

The AKN Board continues to work closely with JCHX Group in the ongoing assessment and acquisition of new project opportunities – not just limited to copper projects but also gold and other metals. The Board continues to hold a view that the improving commodities market remain suitable for business development and acquisition activities.

In particular, the Board of AKN is seeking to advance a potentially significant transaction opportunity which could lead to early cashflows. Further news about this and potentially other activities will be made available to the market as soon as possible.

JCHX Group Loan

During the December 2018 Quarter, AKN drew down a further \$250,000 of funds under this loan facility, taking the total of loaned funds to \$1,000,000. JCHX has agreed to advance a further \$500,000 to AKN in order to assist AKN with its proposed transaction activities over the next few months. The loan terms are the same as for the previous JCHX loan advances and are to be repaid by AKN out of capital raisings that will be conducted this year as part of AKN's proposed transactions.

AKN Staff Salaries

The AKN Board (in conjunction with its staff) has elected to reduce the salaries of all AKN staff and executives by a flat 25% rate, effective immediately. These salaries will be reassessed when AKN's financial position has improved.

Board Composition

Dr Huaisheng Peng, Chairman Mr Paul Williams, Managing Director Mr Robert Yang, Executive Director Mr Qinghai Wang, Non-Executive Director Mr Paul Marshall, Company Secretary

Financial Position

As at 31 December 2018, AKN had cash reserves of \$80k. Together with the JCHX Group loan (referred to above) and their ongoing support AKN will have sufficient funding to carry out project assessment review and transaction activities for the immediate future. However, it remains the intention of the AKN Board to carry out an additional fundraising during the course of early 2019, depending on market conditions and the current status of AKN's activities. Details of any future fundraising will be provided to shareholders and the market at the first available opportunity.

Further details of AKN's financial activities during the December 2018 quarter are set out in the Appendix 5B Quarterly Cashflow Statement which accompanies this Report.

AKN's mining tenement interests

Project/Location	Tenement Reference	AKN % Interest	Comment
MEXICO			
La Dura, Durango	Bonito Minerals Pty Ltd	0	Refer Note 1

Notes:

1. AKN has a 30% shareholding interest in Bonito Minerals Pty Ltd, the holder of an option to acquire the 5 mining concessions which comprise the La Dura project in Durango State, Mexico. During the December 2018 Quarter, due to a lack of Bonito funding, the La Dura owner lapsed Bonito's option agreement.
